

Assembly Instructions (without irrigation system)

1. Open the velcro strip on the top of the first pot.
2. Thread the plastic chain from the bottom of first pot through the sleeve below the Velcro strip.
3. Pull 12 chain links through the top of the pot.
4. Thread the Velcro strip through the 12th chain link and make sure to press it down securely.
5. Then thread the plastic chain through the second pot from the top through the sleeve on the opposite side of the first pot (back to back) and pull the velcro strip through the bottom link inside the first pot.
6. Repeat all of the above with the rest of the pots.

*As easy as that ...
Now you are ready to start growing your DaisyChainer !!Garden.*
